📖 Day-1 College Website – Student Instructions (TODO Guide)

Each HTML file contains <!-- TODO(...) --> markers.
At each marker, you must **write the HTML yourself** according to these instructions.

---

1. index.html (Home)

- **TODO(1):** Add **two more list items** under Quick Facts:

  o   one mentioning student and faculty strength.

  o   one mentioning industry collaboration & research culture.

- **TODO(2):** In the table header row, add **two column headers**: "Metric" and "Value".

- **TODO(3):** In the table body, add **three rows**:

  o   one for number of Departments,

  o   one for number of Programs,

  o   one for number of Clubs.

- **TODO(4):** Inside the <video> tag, add a <source> element pointing to assets/campus.mp4 of type video/mp4.

---

2. about.html

- **TODO(5):** Below the figure, add two paragraphs:

  o   one paragraph for the **Vision** with a quoted statement.

  o   one paragraph for the **Mission** highlighting three qualities (curiosity, competence, character).

- **TODO(6):** Add two <details> sections:

  o   one for the **Principal's Message** with a short text about nurturing talent and diversity.

  o   one for the **Dean (Academics)** with a message about current and rigorous curriculum.

---

3. departments.html

- **TODO(7):** In the unordered list, add six list items — one for each department (CSE, ECE, Mechanical, Civil, Biotechnology, Management).

- **TODO(8):** In the Department Gallery, add six images (figures) — one for each department, using the given asset filenames.

- **TODO(9):** In the definition list, add three **dt/dd pairs** describing facilities: Computing, Electronics, and Mechanical labs.

---

4. courses.html

- **TODO(10):** In the ordered list, add four undergraduate programs: CSE, ECE, ME, and B.Sc/B.Com/B.A.

- **TODO(11):** In the unordered list, add three postgraduate programs: M.Tech AI & ML, MBA, M.Sc Data Science.

- **TODO(12):** Add a **download link** pointing to assets/cse_syllabus.pdf.

---

5. admissions.html

- **TODO(13):** Insert an image showing the admissions process (assets/admissions_steps.jpg).

- **TODO(14):** Create a **fieldset for Personal Details** with legend and three labeled inputs: name, email, phone.

- **TODO(15):** Create a **fieldset for Program Preferences** with legend, a dropdown (select) of 4 programs, and a datalist for intake options.

- **TODO(16):** Create a **fieldset for Other Info** with legend, and controls: entrance score (number), hostel required (checkbox), upload resume (file input).

- **TODO(17):** Add submit and reset buttons.

- **TODO(18):** Show application progress using one <progress> element and seat filling using one <meter> element.

---

6. events.html

- **TODO(19):** In the ordered list, add three events with <time> tags: Orientation Day, Tech Fest, and Convocation.

- **TODO(20):** In the form, add:

- o a dropdown (select) to choose an event,

- o a text input for full name,

- o a number input for semester,

- o and a submit button.

---

7. placements.html

- **TODO(21):** Insert an image showing placement statistics (assets/placements_stats.jpg).

- **TODO(22):** Add a list of five top recruiters.

- **TODO(23):** Add an ordered list of four preparation tracks (coding interviews, system design, aptitude/communication, mock interviews).

---

8. faculty.html

- **TODO(24):** Add a faculty card for the **Principal** with image, name, designation, and an email link.

- **TODO(25):** Add a faculty card for the **Head of CSE** with image, name, designation, and an email link.

---

9. contact.html

- **TODO(26):** Insert a banner image at the top of the contact section (assets/logo_banner.jpg).

- **TODO(27):** Inside the form, add controls:

  - o text input for name,

  - o email input for email,

  - o text input for subject,

  - o textarea for message,

  - o dropdown for purpose (General, Admissions, Placements),

  - o and a submit button.

- **TODO(28):** Insert a campus map image (assets/campus_map.jpg) and a Google Maps iframe.

- **TODO(29):** Add a list with three contact email addresses: Admissions, Placements, and Support (as mailto links).

✅ Rules

- Do **not** use CSS or JavaScript today.

- Fill in all TODOs with correct HTML tags.

- Keep the **header and footer unchanged** across all pages.

- Use only the given **asset filenames** in the assets/ folder.

- Ensure all <img> have alt text, and all form controls have <label for="...">.

- Test navigation: from index.html, you must be able to open every page.
